Greetings,
As a citizen of Oregon, living at [redacted] in Corvallis, [redacted] 5 I am appalled that base commercial interests are asking to pollute a dark sky zone with artificial light in our National Forest. While some folks think that it affects only 4 acres, if the light can be seen beyond this boundary, in any way, it is certain that it will affect all that it touches.
I am urging the Forest Service to deny this request by American Land and Leisure to pollute our night skies.
