Victoria,

Thanks for sharing the very detailed and extensive report on the Neuse River Recreation Sites and the vast studies that have been going on. It is VERY unfortunate that these resources, especially Flanners Beach have sat for over 5 years without any improvements made. All other private areas that were destroyed or damaged by Florence, have long since been repaired and returned to normal.

That said, I would recommend a public meeting to present these results. It is a bit unfair to have the public try to read through documents as detailed (and well done I might add!) as these. A meeting would be much more appropriate. Maybe an open house for a day or weekend. Just a thought.

Thanks,

Don Frazier
