Mr. Kuhl,

Thank you for signing me up. I've a few questions for your review and discussion during the meeting.

1. It seems to me we have plenty of rules already in place but are coming up short on the "enforcement" side of the equation? How will banning more area achieve a better result? Using this method-- speeding can be prevented by posting as new speed limit sign.

2. What is the plan for building the Turkey Tracks range complex? Meaning, how long will it take, Will the area be open to shooters during construction or will another area be available? What will the control measures be once it is complete and what is the expected cost for construction and for usage afterward?

3. If previous shooting bans/off limits areas didn't work; why will banning recreational shooting

in a much larger area produce better results? Especially, if the range complex isn't finished before the ban goes into effect.

Gary Lacer
