Comments: It is my understanding that current resources will be designated to support road access, safety, and restoration projects in the Cedar-Gales burn area. I wish to emphasize that, as soon as is possible, attention and funds need to be directed to restoration of recreation resources in the Waldo Lake area as well. Speaking as a member of Back Country Horsemen of Oregon (Eugene Chapter), we have put in hundreds of hours clearing trails, particularly in the north Waldo area. Harrelson Horse Camp is essential to our access to work projects in the entire area. Roads 5897000, 8000, and 5898511, 14, 15, 16, and 19 are listed as priority roads. Thank you! It appears that access roads to the Harrelson Camp will be maintained. EEBCHO asks to be consulted with regard to improvement of the gravel spur road into Harrelson and to the rebuilding plans for the camp itself. Please call on us as volunteer help on the ground as soon as safety concerns allow. Thanks again, Jean Clancey EEBCHO
