Comments: Enclosed please see the attachment with my comments and objections.

I have no objections to gathering and removing wild horses from Territories and Herd Mgmt. Areas if they are overpopulating; but I do object to the advancing low AMLs of today wherein numbers won't sustain healthy herds and wherein resources for the animals are not due to overpopulation, but to inequitable distribution of the resources to livestock, wildlife and wild horses and due to the governmental mismanagement of the public land resources for the wild horses.

I have long been involved in teaching science and in researching wild horse and burro issues and habitats, I have most recently assisted the staff in the Devils Garden Territory in securing transport and placements for those horse there.

Have a good day and thank you again for your thorough help this AM. Bonnie Kohleriter
