Comments: Greetings

I'm a Colorado resident, Boulder County. I'm an avid outdoor athlete. Motorcycles are an important part of my lifestyle. I own two bikes. One is a single tract, the other is a dual sport bike set up for adventure camping. Both bikes are plated and insured.

Traveling the Colorado byways and Offroad circuits is an important part of my recreation expression. In 2021 I spent a considerable amount of money stimulating the Colorado economy. I purchased bikes from a local motorcycle dealer, I paid state taxes and registration fees, I stimulated economies in the communities I traveled to while riding. Motorcycle adventures are an important aspect to Colorado's economy and community.

It is very important to me that motorcycle access to our forest roads remain accessible to the public. Our public lands are just that, public. They need to remain accessible to user groups that appreciate and are stewards of the beautiful natural resources we have here in our state.

I have many adventures planned in the upcoming season. The Colorado Back Country Adventure Route is one of them.

Please keep our resources available for enjoyment.

Thank you

Joseph Schwartz
