Comments: I would like to comment on the Grand Mesa, Uncompahgre and Gunnison Forest Plan Revision #51806. Responsible motorized recreation is a way to enjoy our National Forests and Lands. Please do not close these lands to those of us who enjoy motorized recreation. I have had the opportunity to enjoy this area for many years on my motorcycle riding both single track and two track forest roads. I always pick up trash and "Stay on the Trails". When volunteers are needed to do trail maintenance, I always volunteer. Sharing these lands with my Grandchildren while riding responsibly is important to our family. Thank you for taking my comments.
