Comments: Our rivers are some of the most important assets on the Grand Mesa Uncompahgre and Gunnison National Forest. All free-flowing rivers with outstandingly remarkable values must be found as eligible for wild and scenic protections. In particular, I support Wild & Scenic eligibility for all the river, creek, and stream segments described at <https://ourcowaters.org/gmug/> These waters provide rare habitat for many important species. Thank you for your consideration. The words above are professional words to state the importance of free - flowing rivers to our beautiful state. I just want to mention something from the heart and ask to keep our waters pure and free - flowing to make our state as healthy and as beautiful as possible so all life can benefit now and in our future. An investment we can always be proud of.
