Comments: As an active 4x4 enthusiast and long time resident of Utah I would ask that the NFS please try and keep as much land as possible open for off road vehicle access. My wife and I love the outdoors and get out as much as possible. Because of health issues she is no longer able to hike so we try and drive as much as we can to see the great natural resources found in Utah. We have joined a jeep club and love to visit locations throughout Utah with our friends and would hate to see access restricted.

Thank you for all you do to keep our public land public and accessible to all.
