John Azevedo	Ojai, CA	<p>We need to preserve the few natural environments we have left.</p> <p>We also should be concentrating on using alternative energy so that we can stop killing the planet and all of the living things on it. Including us and our children.</p>
Lanny Kaufer	Ojai, CA	The Sespe Wilderness is too beautiful and important as a native habitat to risk spoiling with tracking. It's an irresponsible idea that should never even be considered.
Scott Waldron	Ojai, CA	Please don't let them rape our beautiful wilderness for short term profit. It's time to protect our planet before it's too late.
Ellen Lockett	Ojai, CA	I believe fracking is a terrible mistake...for the environment and anyone who appreciates the wilderness. Also, from a practical point of view, the Southwest is facing critical water shortages for an unknown future period. No water should be waster and mixed with chemicals in a world threatened on so many environmental fronts and moving to green technologies. Please prohibit fracking.
Kathleen Macgregor	Ojai, CA	FRACKING IS A DISASTER FOR THE ENVIRONMENT.
Allen Camp	Ojai, CA

Regina Holman	Oxnard, CA	
Natalie Swan	Oxnard, CA	NO FRACKING.....I AM AGAINST FRACKING.. WE HAVE ENOUGH WATER PROBLEMS.
Raymond Swift	Oxnard, CA	
Patrick Martin	Moorpark, CA	The reason oil companies keep the chemicals in

Name	City	Personal Comments
		fracking secret is so the public will not be upset with them, not because they are trying to keep the chemicals secret from other oil companies.
Tom Jackson	Carpinteria, CA	Please leave this special place in peace. The Sespe is truly beautiful, and still wild. Why not leave it alone. Fossil fuels are what we want to turn away from. This is a classic rare place of California in its natural state and so close to major population, a sanctuary for all to enjoy. Why would we want turn it into another ruined place.
Delia Cunningham	Carpinteria, CA	Please don't desecrate the beautiful Sespe-please....!
Marlayna Wagner	Santa Barbara, CA	
Rebecca Plum	Santa Barbara, CA	
Cheryl Niccoli	Santa Barbara, CA
