Comments:

The proposed Special Management Area winter is a bad idea - it is smack dab in the middle of the divide which will result in snow mobiles dropping down into the Montana side of recommended wilderness. Snowmobilers will drop into the lake bowls for their thrills and adrenaline rushes. Enforcement? A nightmare!

I support Option A for the Hoodoo Roadless Area. This option will help protect winter habitat for goats & wolverines. This area also serves as an important connectivity corridor between the Bob/Mission & the Great Burn.
