I Do support the Special Recreation Management areas Proposed Option within the recommended Wilderness. Snowmobilers have been using these areas for 30 years or more for snowmobiling. Mountain Goats don't winter in historic riding areas because they don't get around very well in deep snow. There has been no evidence of a Lynx in the Great Burn and no evidence that snowmobile activity or use negatively impacts wolverines. The Forest Plan Rule call for sustainable non-motorized and motorized. Region 1 is treating RWA's as de facto wilderness, when the 2012 Forest Plan rule actually says we can be there. The 2012 Forest Plan rule should trump Region 1 Policy. The policy shouldn't be used after 2012 to close RWA's. Back Country snowmobiler like these areas Cause of the high mountain basin and the back Country ^{experience} ~~experience~~ they get these areas are highly valued by snowmobilers and we love the scenery.
