☒ Yes, I want to receive a notice when the Final Environmental Impact Statement and Draft Record of Decision are available for public review. RE: my property @ 220 copperfield Drive will be surrounded
by electrical lines on 3 sides.

COMMENT

RE: my property @ 220 copperfield Drive Reno 89506:
I have a concern of the gusts of 60 mph plus winds
coming down off of Peavine Mountain toward
the freeway that the powerlines &/or poles
are not blown down the hill onto my house,
& start a fire &/destroying my fencing &/or property.
I am concerned about how they will look; the
Alturas line along 395 @ Lemmon Vly & Golden Valley
green paint is chipping off & looks ugly.
I am concerned about the endangered species & tree
removal especially the Flamulated Owl & conifers & Aspen.
The high pitched sound from the Alturas Line causes
ringing in my ears, after I have turned off the
TV, radio to go to bed, I hear ringing in my
ears overnight, making sleeping difficult, ever

Comments, including names, street addresses, e-mail addresses, and phone numbers (if provided) of respondents will become a part of the project record.

since the Alturas line went in.
will lines detach from poles in winds & gusts.
Lightning strike failure, structural failure, start FIRE!

ARE THE LINES GOING TO BE FAR ENOUGH APART TO NOT
SLAP TOGETHER?

From:

HEALTH risks with electromagnetic lines causing cancer
EMC can wash out radio emergency broadcasts
warning weather or fire; the white noise
drowns out radio frequency/frequencies.
