Elaine Korhman

U.S. Forest Service

Albuquerque, New Mexico

Dear Ms. Korhman,

Please do not designate parcel D2 5K6 as a "Wilderness".

Having a wilderness designation so close to our private property would have an adverse affect on us, because, people who would not be allowed to go into that area in motorized vehicles would most likely begin to trespass on our private property as they would not be willing to give up on going to that area for recreation or hunting.

Greater consideration should be given to suggestions of the local residents of Cibola County who are more greatly affected by the decisions because they live here. The people in New York and France probably would not like us making legislation that would affect their neighborhood when we are not residents of their state or country.

We take care of the forest and encourage others to take care of it also. It is not necessary for D2 5K6 to be designated wilderness. There have been human activities there in past generations.

A handwritten signature in cursive script, appearing to read "Elaine A. Minner". The signature is written in dark ink and is located in the lower right portion of the document.
