Cibola National Forest

2113 Osuna Rd. NE 87113

SJ: BIKE TRAILS

Dear Elaine ,

I don't understand why anybody would want to do more damage to this beautiful mountain by putting these trails all threw the Cibola National forest. There is plenty of forest roads in unit 10 everywhere?

Ever since they put Hislo mountain bike trail in Cibola National Forest it has taken a big toll on the habitat, it's is rare to see a Deer or any animals in that area and all the SEMIS from HAMILTONS TRUCKING Has caused a disaster in that area please see for yourself. I have nothing against Bike Riders

But there are plenty of forest roads to ride on my,God forest road 50 can keep the bike riders busy

For days. I have a small Ranch in unit 10 and I have seen how this Cibola National forest is abused ,

I am up there more then your Forest Game Wardens? I have missed the meetings that you have had

Believe me I would of attened one of these meetings but I had to work. in my opinion if it really matters

They need to do more studies on the abuse of this National Forest. All I ask is for you to go spend some time in that National Forest and see for yourself take a ride threw some of the forest roads and you will agree that there is no need for more BIKE TRAIL. Have a nice day.

Sincerely,

Somebody that cares about Cibola National Forest.
