

October 7th, 2016

Dear District Ranger Kinsey,

In response to the notice regarding the Hermosa Taylor Deposit Drilling Project:

We would like to know if there was supposed to be a response deadline listed on the printed scoping notice that we received via U.S. mail?

For our scoping comments we would like to make the following suggestions:

1. A better overview map placed into scoping notices that would have area geographic landmarks that we recognize in this area.
2. We suggest that any possible impacts to the Farrell grazing allotment be evaluated (water, grazing, and access).

Sincerely,

Hale Family Trust, Ruth Hale, Nancy Hale, Mary Hale, Farrell Allotment
