

12.29.16

Dear Mary Erickson,

I hope your holidays were wonderful, warm and rememberable.

JAN 04 2017

I am writing as an advocate for the Native Wild Buffalo. My request is that the National Forest review, the required, best available scientific information on migratory buffalo. This information supports ~~the~~ changing Forest Plan to list wild buffalo as a Species of Conservation Concern.

I am positive that you are well informed of this issue. As an American, native Californian it is my responsibility to voice my concern. The buffalo are a national treasure. Please help prevent future abuses of the buffalo.

Thank you for your time and consideration

Hebville Brooke
