Re: Rocks Restoration Project

Thank you for the opportunity to comment on the proposed Rocks Restoration Project. The Plumas County Fire Safe Council has been made aware of the project through updates from Forest Service staff at our regular meetings.

The Council would like to express support for the project's hazardous fuel reduction objectives. The desired conditions are aligned with those of the Plumas County Fire Safe Council. The Council is pleased to see that "reintroducing fire into fire-adapted ecosystems" is a goal of the project and we support the use of prescribed fire. Additionally, we acknowledge the value in improving forest health as it contributes to greater fire resilience across the landscape.

Please feel free to contact myself or Hannah Hepner, Plumas County Fire Safe Council Coordinator, with any questions regarding the provided comments.

Sincerely,

A handwritten signature in black ink that reads "Mike Callaghan". The signature is fluid and cursive, with the first name "Mike" being more prominent.

Mike Callaghan
Plumas County Fire Safe Council, Chair
