

June 30,2017

To whom it may concern,

This is a letter in support of Midas Gold and its operation in the Stibnite area. We have watched Midas Gold since their arrival and have always been very impressed with their high standard of putting the environment first above all things.

We have known people who have worked there, and are working there now. They have conveyed to us the above and beyond work that is done to keep the area pristine.

Midas Gold is a huge asset to this county. We are grateful to have them here, not just because they provide employment, but also because of what they bring to the community.

We give them our full support.

Sincerely,

Ron and Sally Wise
