Subject: Support for the Stibnite project Midas
Date: Thursday, July 13, 2017 11:19:59 AM

Sirs, after studying the Stibnite project for 4 years I see no reason to delay . I was born and raised my family here in Idaho and have lived here all my life and see this very valuable project to help Idaho's environment , rivers and streams .

I help formalate Idaho's Stream Channel Protection Program (IDWR) and have conducted over 25 studies on the effects of gold mining on aquatic wildlife in Idaho. This project by Midas is a very sound plan . Alan Trees 316 Seven Devils Rd. Riggins , Idaho 83549

Thank You
