Dear Mr Lannom,

This seems to be a perfect fit for the current state of the land. A company is willing to invest a huge amount of money to try to put the landscape in a truly suitable form and return the salmon to their traditional habitat. I fail to understand why anyone would be opposed.

I am in favor of the Stibite Gold Project. Whatever you can do to move it forward would have my genuine backing.

Thank you for your effort.

With Best regards,

Mary Mink. Idaho Native Resident
