Dear Mr. Lannom,

I would like to express my support of Midas Gold Idaho and ask you to adopt the proposed activities outlined by its Plan of Restoration and Operations as the preferred alternative during the EIS process.

The Stibnite Gold Project is important for Idaho's citizens, economy and environment. As an avid hunter and fisherman, ensuring the longevity of our land is not only important to me as a citizen but also as a legislator of this great state. This project will properly restore the Brownfield site in Stibnite and provide a significant positive economic impact.

With an investment of \$1 billion in Idaho and approximately 1,000 new jobs, it is important that the project move forward.

Through my conversations with the company, and from what I have learned reviewing their plan, I feel confident the Stibnite Gold Project is a great opportunity for our state. I urge you to accept Midas Gold's preferred alternatives provided in the Plan of Restoration and Operations.

Thank you for your consideration of my comments.

Sincerely,

A handwritten signature in blue ink that reads "Fred Wood".

Fred Wood
