Re: Sentences in error

Ranger Hatfield,

Two sentences were inadvertently included in FAW's January 25th, 2017 comment letter on the Tracy Ridge Project. On page 7, the two sentences in question state: *"When FAW reached out to the ANF for a copy of this assessment, the assessment provided discussed plant life only. It appears that either the ANF was unwilling or unable to provide any detail on any analysis that may or may not have been done concerning Tracy Ridge wildlife."* These two sentences (and only these two sentences) should not have been included in the comment letter and need not be considered by the ANF.

Thank you,

Kirk Johnson
