Dear Mr. Armentrout:

The Intermountain Forest Association previously submitted comments, as well as a spread sheet, on the draft Identifying and Assessing At-Risk Species Assessment and the draft proposed list of Species of Conservation Concern (SCCs) associated with the Grand Mesa, Uncompahgre, and Gunnison National Forests forest plan revision.

This letter is meant to serve as a follow-up to the previous letter, now that information on the remaining four species has been provided. Please use the newly updated spreadsheet, which contains our previous comments, plus comments on the four other species.

Thank you for this opportunity to review and comment. We would be happy to discuss these comments and recommendations with you at your convenience.

Sincerely,

Molly Pitts
