Re: Copper Mountain Proposed Project

Dear Mr. Fitzwilliams:

I recently reviewed the information that appeared in the November 10, 2018 edition of the Summit Daily.

In regard to the comment that "Copper's proposed summer programming additions would also center around overnight camping at the resort....."

I would like to go on record as being very much opposed to the forest service allowing any 'camping' to occur with this submittal.

Thank you very much for including my comment in your review process.

Sincerely,

Tom Malmgren
Resident of Copper Mountain
