Red Rocks Vegetation Project, Beaverhead-Deerlodge National Forest

I have commented previously in this project. I recreate regularly in the Red Rocks area. The maps that are proposed are incomplete. Many routes are left out with nothing said such as 1566, 5130, and 69. These are only a few of them. Why are these left out? They are all important routes to me. Please provide a more detailed map for these reasons. Also in your own words, you said that motorized users would suffer no more losses after the BVRD Forest Plan. Yet, you continue to shut down our routes. I would like to offer a simple solution: hands off our trails. Thank you for considering my comment.
