

Dear GMUG Forest Planning Team,

First off, I would like to commend the GMUG Forest Planning Team for including the public in the Preliminary Draft Plan and wanting our feedback! I am a high school student in Grand Junction and I love hiking and camping with my friends, so I believe that it is very important to take care of our public lands. I am also an animal lover so I believe that it is very important to focus on maintaining healthy wildlife populations. Wildlife is very important to our ecosystem and the health of our forests.

To conclude I would like to reiterate my appreciation that you wanted the involvement of the public at this stage in the planning process. ~~Thank you~~

Sincerely,

Katie Fry
