Back off. Everything is working fine the way it is. If you want to help the rivers make the busiest spots more accessible by adding better parking more restrooms and more spots to launch. If it bothered me to see people while floating moose I would leave and go float somewhere else. There is no need to limit ~~and~~ anything. The only thing you are doing is screwing the locals the work hard for little income to live and play in the spot we call home and now you are trying to take it away.
