I feel that it is important to distinguish party size /group size from actual numbers of people. 2 rafts can easily be 4 people or ~~10~~ ~~15~~ ~~20~~ the impact is very different. I have been on some rivers (Rogue for example) that have a ~~lot~~ limit on the number of people rather than parties. I also think just having people go through the action of getting a permit (walk in) will help the crowds. I'd be happy to pay a small fee to support our rivers.

Thanks!
