Subject: Plans for the Stibnite Gold project need to protect water quality and restore habitat
Date: Friday, June 16, 2017 11:41:37 AM

Dear Payette Forest Supervisor Keith Lannom and staff,

Can't we learn from 100 years of desecration of OUR public lands? The antiquated Mining law does not protect our resources and the reclamation promises only really amount to an unenforceable "cover up the hole", "sorry about the leaks", "the LLC is bankrupt and we are headed home". Don't be endlessly naïve and re-live this recurring nightmare. If you cannot get an irrevocable bond for 140% of reclamation costs, they cannot afford to do business. This area has been trashed for many years and several projects. Don't you get it? The American shareholders are the endless stooges and the FS is the administrator paid to not let it happen over and over. Face reality!

Mr. Alan Reynolds
