Subject: Plans for the Stibnite Gold project need to protect water quality and restore habitat
Date: Tuesday, June 20, 2017 8:05:52 PM

Dear Payette Forest Supervisor Keith Lannom and staff,

I will keep it simple. As an Idahoan, I believe that all citizens of the United States have an obligation to preserve our beautiful country. The Salmon River is a critical part of our ecosystem, and it needs to be maintained. This planet is the only one we have, and its resources are scarce. It is more economically viable in the long run to protect the only planet that can sustain the human race. Please, do not contribute any more to the environmental devastation that humans have caused for too many years.

Respectfully,
Noah Eberle
