---

Dear Sirs,

I have been impressed with Midas Gold Idaho and their commitment to the environment as they work on the Stibnite Gold Project. Their goal to restore and improve the area around the project will help keep this part of Idaho beautiful for years to come. As a family, we enjoy visiting Idaho for vacations. There are so many fun things to do and beautiful areas to explore. I am very happy Midas Gold is working hard to ensure a wonderful place for wildlife and a lovely area for families to explore. The Stibnite Gold Project is also bringing positive employment opportunities to the area. This project is a positive addition in Idaho and I support the work Midas Gold is doing.

Sincerely,  
Sue Field
