To : Keith Lannom , Payette National Forest

Concern:

The biggest concern on our part is the road coming down from Landmark. The road is hazardous as it is with very few turnouts. When you start bringing large truck down the road in numbers, it will obviously make it more of a dangerous problem. Also it is a concern as to whom the maintenance of the road will fall to. As a group at Warm Lake we really don't have any idea as to the problems that could eventually come forth at this time so it will be a learning experience for all of us.
