To whom it may concern:

I do not work or affiliate with Midas Gold but I am a recreationalist in the Idaho forests. I spend much of my summer in the central mountains of Idaho. I support Midas Gold and feel they are good stewards of our forest and lands. They provide jobs and help boost the economy both locally and state wide. They provide jobs and I feel that they manage the land that they are mining. I hope the state and federal regulators will allow Midas Gold to continue to grow and support the local economy. I approve Midas Golds proposal and find the EIS to be acceptable.

Respectfully,

Kirk Hansen
