- Management Areas (MA)

- Suitable Timber

Is your feedback about a specific area(s)? If so, where? (Please also draw this on the map on the back of this form).

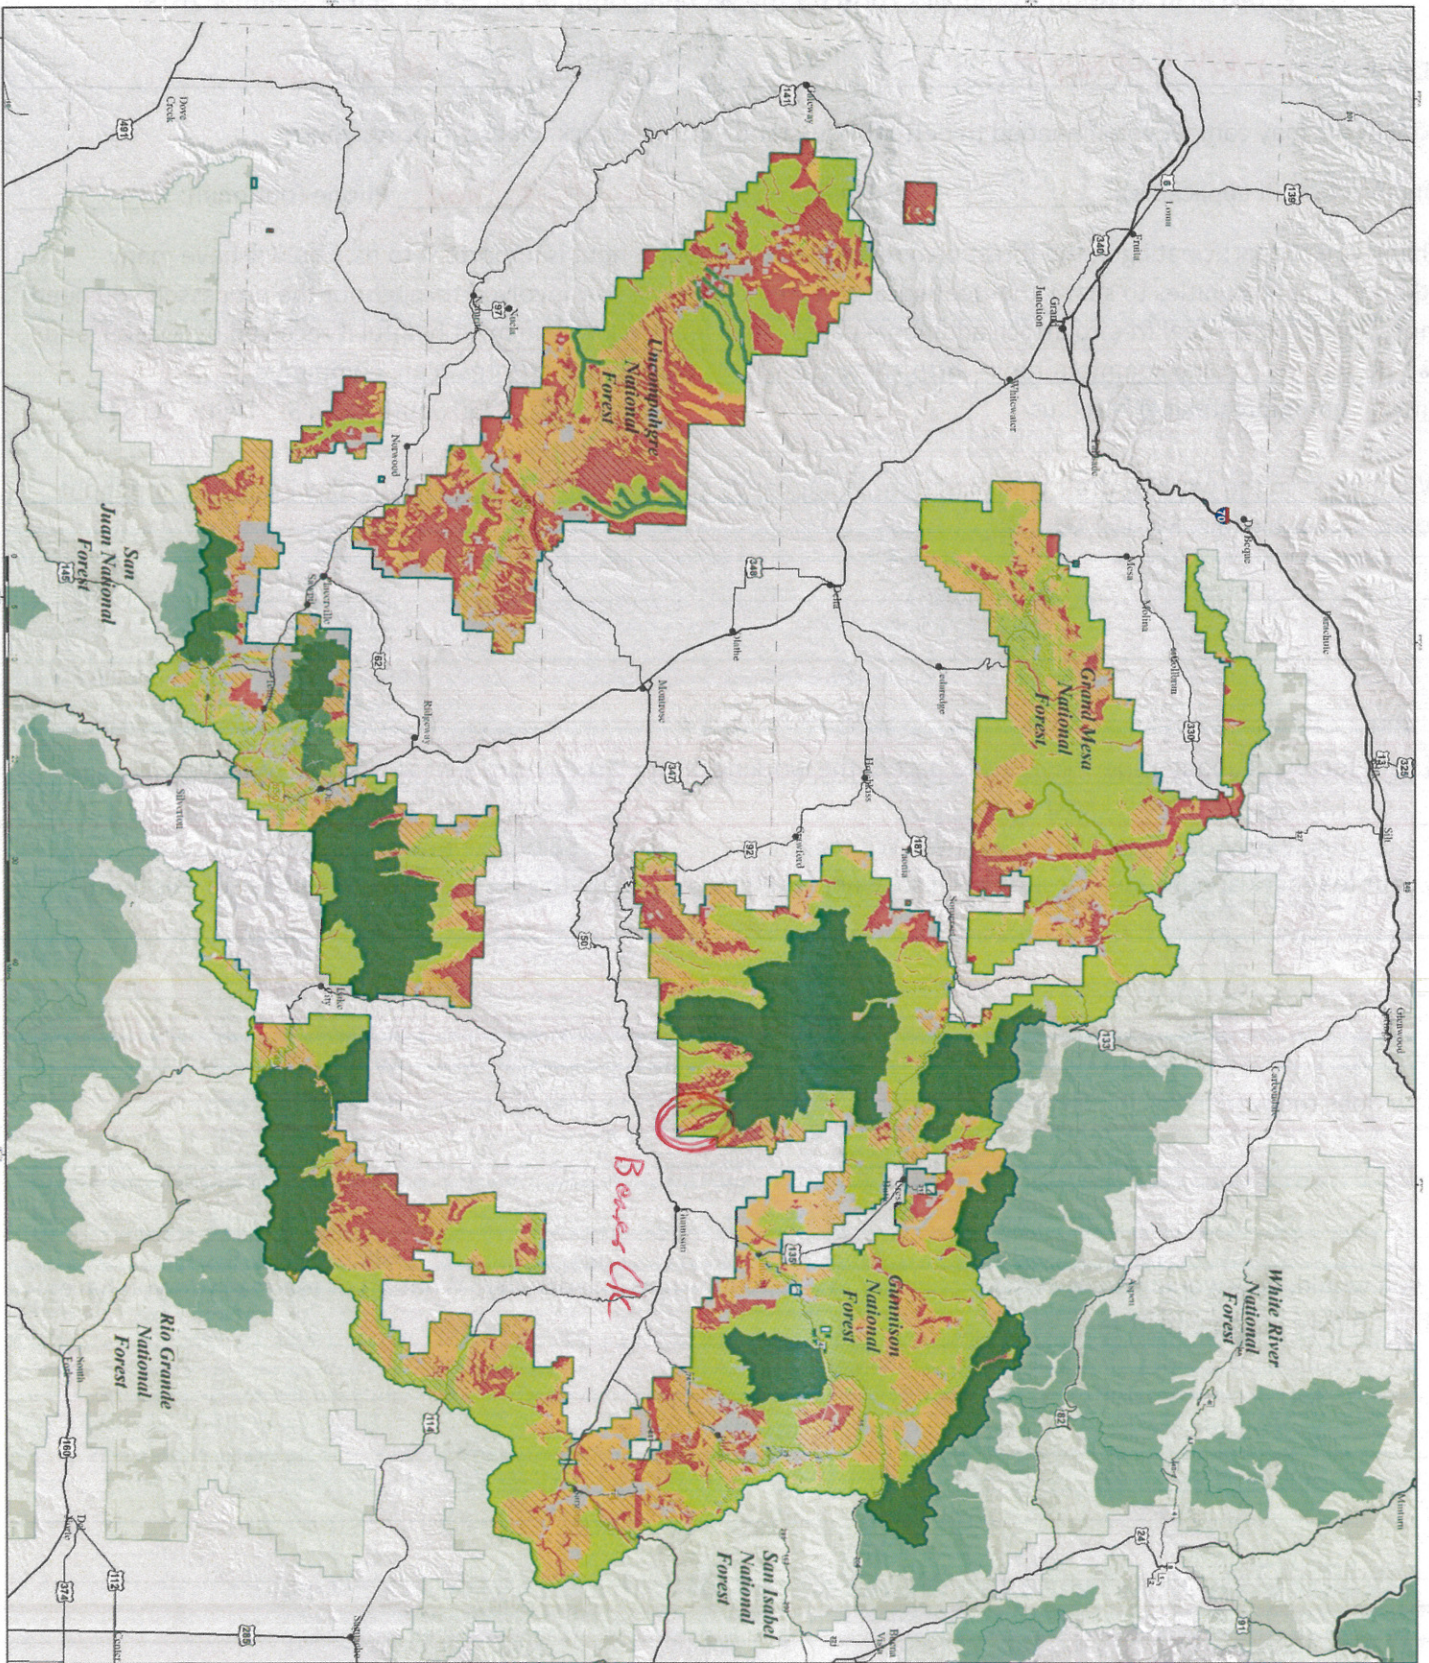

Yes - W. Beaver Creek (see circled map). I believe this area is not suitable for timber production - Scenic quality is high; recreation is important; timber production accessibility is questionable

How does the working draft categorize the area you're referring to? (e.g. MA category, ROS setting, etc.) _____

If you would, how would you re-categorize the area you're referring to, and why? What other feedback do you have about future management there? _____
