What works in the working draft plan direction? What needs improvement? Please include specific plan component codes if possible (e.g. FW-DC-AQ-02).

Remove pack goat Ban from draft. No scientific evidence implicating disease transmission of pack goats to Bighorn Sheep. See my letter dated July 7, 2019 in public reading room

Is your feedback about a specific mapped part of the working draft? If so, which? Please circle all that apply:

- Management Areas (MA)
- Recreation Settings (ROS) – Summer, Winter
- Scenic Integrity Objectives (SIOs)
- Suitable Timber

Is your feedback about a specific area(s)? If so, where? (Please also draw this on the map on the back of this form).

See my comments along with other safe management practices offered by NAPgA - See all letters / comments in public reading room.

How does the working draft categorize the area you're referring to? (e.g. MA category, ROS setting, etc.)

Forest-wide Ban, no flexibility at all

If you would, how would you re-categorize the area you're referring to, and why? What other feedback do you have about future management there?

Take into consideration all facts and points of concern brought forth in comments by NAPgA members. Dialogue with NAPgA Board on their Responsible / Safe Practices video / guide / instructions
