

KAKE TRIBAL CORPORATION

KAKE TRIBAL TOURISM

Kake Tribal Tourism already handles summer cruise boat visitors, but tourism is seen as the growth area in terms of jobs and new businesses.

Rendezvous Resorts is looking at developing tourism infra structure consisting of a dome village which can be built as demand grows using the [Global Domes](#).

Kake is ideally located at the centre of the SE Peninsula allowing quick and easy access to other nearby cities either by helicopter or by sea.

Kake itself is surrounded by natural habitat and water that is conducive to developing: a versatile variety of tourist attractions such as:

- | | | |
|--------------------------|-----------------------|-------------------------|
| Restaurants | Bay Trips | Fishing |
| Forest walks | Hang Gliding | Helicopter trips |
| Forest Bike Rides | Diving | Parachuting |
| Hiking | Snow Skiing | Water Skiing |
| Ballooning | Whale watching | Eco Tourism |

Tourism is labor intensive and the development of tourism infra structure will open up new job and business opportunities.

Cruise boats will be encouraged to make a stopover in Kake and a helicopter will facilitate commuting between Kake and Juneau, Sitka and Ketchikan the main arrival ports for airlines from the South and the cruise boat entry ports.

If the tourist accommodation proposal proceeds, a water front Dancing Water feature is planned which with laser lighting will be a huge attraction for passing ships and individual travelers.
