Greetings:

Any Forest Service plan for the Mendenhall Glacier Recreation Area should specify **NO** expanded bus parking near the visitor center; **NO** vehicle access close to the existing facilities; remote parking for cars and buses during the summer with an electric shuttle system to move people to the facilities; manage for the future with an eye on climate change, renewable energy and sustainability. Also any boats on the lake should be electric, NOT diesel.

Please listen to the Juneau public on this!

Thank you.
