COMMENTS: Make the ~~the~~ new Welcome
center LEED certified Platinum,
it is important to set the example.

All boats on the lake should
be made electric; same with
the busses.

Avoid making the central walkway
a giant slab of cement.

Increase the separation of people
& nature around the Welcome & visitor
center, not enough elevated walk ways
where there is heavy traffic flow.

NO FISH VIEWING WINDOW!

If needed, attach sheets to provide additional comments
