

U.S.F.S.,

It is with great pleasure that I write to the U.S. Forest Service to encourage you to permit the proposed activities outlined by Midas Gold in the Plan of Restoration and Operations during this public input process.

Midas Gold prioritizes working alongside Idahoans. The company has shown a clear interest in understanding and remedying concerns around the project. They have taken the time to work with the community to develop solutions that work for everyone. For example, the company worked closely with residents of Yellow Pine, recreationalists and snowmobilers to figure out how to preserve access to certain roads in the backcountry. The changes the company made are included in alternative 2. The company didn't need to do this but they did because they knew it was the right thing to do. Through their collaboration with stakeholders at all levels, they have come up with a plan that will not only help Idaho's economy but help restore a legacy site. Their plan has considerable community support.

Midas Gold Idaho wants to invest \$1 billion in our state, bring more than hundreds of jobs to rural Idaho and still provide access to Idaho's public lands. This is the type of project our state needs. I highly encourage the U.S. Forest Service to permit this project, following alternative 2.

My best,

Name: Shaun Smith
