

Payette National Forest Supervisor,

I am writing in support of the Stibnite Gold Project and the benefits it will bring to Idaho. This project has the potential to put hundreds of Idahoans to work, bring a \$1 billion investment into our state and restore an area of Idaho's backcountry desperately in need of repair.

The Stibnite Gold Project is good for the Idaho workforce. Midas Gold's strong commitment to hiring locally and using local vendors and suppliers helps build our economic base. The salaries of the positions at the Stibnite Gold Project will be approximately two times higher than typical jobs in Valley County. The financial security and on-the-job training opportunities these positions bring has the potential to bring meaningful change to families throughout the region. Additionally, we know mining brings more than jobs and robust wages to our state, it promotes the development of secondary businesses and the production of more goods and materials right here in Idaho.

As the U.S. Forest Service and other state and federal agencies review the proposed plan and determine the course of action, I encourage you to consider and appropriately weigh the positive benefits Midas Gold will have on Idaho. Alternative Two truly is a win-win opportunity for Idahoans and the environment.

Warm regards,

Name: Rory Ferrell
