

USFS,

Midas Gold Idaho has been a member of our community for the past decade. During this time, the company and its employees have become wonderful champions and supporters of our community. They've volunteered their time in our schools and given generously to community causes. The company's track record of following through on its promises and doing the right thing gives us the confidence to write in support of permitting the Stibnite Gold Project.

This project, especially Alternative 2, is in line with Idaho values and our way of life. Idahoans have long understood that using the land and protecting the land can go hand-in-hand. The approach Midas Gold has taken in the Plan of Restoration and Operations blends improving public lands with building a robust business and it is an approach we encourage. From repairing a legacy mine site to developing roads and power infrastructure, the \$1 billion investment the company would make in Idaho will benefit the entire state.

After reading my letter, I hope you can see why you should permit the Stibnite Gold Project. This project is a good thing for Idaho, helps decrease America's dependence on foreign countries for critical minerals and cleans up the environment.

Most Respectfully,

Name: Tyson Clyne
