

Attention Linda Jackson,

Midas Gold Idaho has been a member of our community for the past decade. During this time, the company and its employees have become wonderful champions and supporters of our community. They've volunteered their time in our schools and given generously to community causes. The company's track record of following through on its promises and doing the right thing gives us the confidence to write in support of permitting the Stibnite Gold Project.

If you examine Midas Gold Idaho's Plan of Restoration and Operations, it is evident the company identified the best possible plan to restore the site under Alternative Two. The company is limiting its footprint to existing disturbance as much as possible to minimize new disturbance, natural fish spawning routes will be restored after being blocked for decades and the company has plans to make improvements that will keep thousands of pounds of sediment out of the river each year. Unfortunately, if Midas Gold Idaho is not allowed to move forward with its plan, it is highly unlikely that these critical improvements will ever happen.

I believe that the 60 day comment period is sufficient and should not be extended as this project is important to our community and needs to be allowed to move forward.

I appreciate your time and thoughtfulness. For the reasons I stated in my letter above, please permit the Stibnite Gold Project using alternative 2 and let Idahoans see the benefits of this important project.

Thank You,

Name: Lori Clemens
