

Hello,

Thank you for the opportunity to provide feedback on the Stibnite Gold Project as part of Midas Gold Idaho's Comment Period. I have been closely following Midas Gold Idaho's plans since they first came into our state, in large part because much of the proposed project will take place on public land. The more I have learned about the project, the more excited I am about the possibilities it will bring into our state.

Midas Gold has made it clear reclamation efforts will start alongside operations. They have worked to find safe access routes to the site that keep vehicles away from our precious waterways. Plus, the company is trying to minimize their impact on the environment by keeping facilities within the existing footprint of historic mining operations.

I encourage the U.S. Forest Service to move the Stibnite Gold Project forward and adopt Alternative two as the preferred alternative.

Respectfully,

Name: Larry Dasenbrock
