

Dear Permitting Officials,

Midas Gold Idaho's Stibnite Gold Project presents Idaho, particularly rural Idaho, with a huge economic and environmental opportunity. I am writing to encourage you to permit the project as quickly as possible.

Midas Gold Idaho is not your typical mining company. The company realizes the Stibnite Gold Project site has been damaged after nearly a century of mining and that something must be done if we ever want to reclaim this brownfield site. Midas Gold Idaho wants to restore the site and take care of the environment through mining. I believe alternative 2 as outlined by the U.S. Forest Service is the best chance to help the repair the historic Stibnite Mining District.

Reviewing Midas Gold's plans and visiting the site, and meeting the people, it is clear to me the company really believes in taking care of the environment and keeping the community safe. I urge you to permit the Stibnite Gold Project as outlined under Alternative 2 and keep this project moving forward.

Warm regards,

Kevin Bussert
