

TO: USDA Forest Service
OB Section Review officer.

8/14/2020

I have submitted my comments on making the Bison in the Custer Gallatin Forest in favor of making the Bison a species of concern and conservation. I have also expressed this opinion to Superintendent Erickson in a phone call.

I wish to object to the decision by Ms. Erickson + Forester Marten for failing to include legal designations securing the viability and conservation of American Bison habitat in the National Forests
