

Greetings,

I am in favor of the Stibnite Gold Project. Thank you for the opportunity to provide my feedback as part of the National Environmental Policy Act.

I have reviewed the Plan of Restoration and Operations and I believe the Stibnite Gold Project is an opportunity to repair the environment and bring an economic boost to the community. As a nation we have no right to lock up our natural resources only to buy from another nation what is better produced by us. Lord only knows this forest service has a strangle hold on too much land and resources. This emity is a national disgrace as to their management practices. If Midas Gold isn't allowed to move forward with its plan, this area in Idaho's backcountry will continue to suffer.

The Stibnite Gold Project is the type of project our state needs. I highly encourage the U.S. Forest Service to permit this project, using the preferred alternative presented by Midas Gold, as expeditiously as possible.
