

DEAR MS JACKSON,

Thank you for the opportunity to provide feedback on the Stibnite Gold Project as part of Midas Gold Idaho's Draft Environmental Impact Statement. Public participation is a huge part of the permitting process and I appreciate the opportunity to share my thoughts.

The study of the Stibnite Gold Project brought to light the environmental conditions existing at Stibnite because of past operators. Arsenic levels in the EFSFSR are far beyond safe standards. If Alternative 5 is selected, how will USFS address these legacies impacting the waters of Idaho? Who will pay to provide permanent and volitional fish passage?

Reviewing Midas Gold's plans it is clear to me the company really believes in taking care of the environment and keeping the community safe. I urge you to permit the Stibnite Gold Project as outlined under Alternative 2 and keep this project moving forward.

Best regards,

Dave Paulsen
