

Greetings,

I am writing to express my full support of Midas Gold Idaho and the Stibnite Gold Project. Over the past several years Midas Gold has shown its commitment to Valley County and the state of Idaho and I encourage you to permit the proposed activities outlined by Midas Gold in its Plan of Restoration and Operations.

Alternative 2 of the Stibnite Gold Project presents a plan to repair the environment and boost Idaho's economy. Historic mining operations, development of former town site and natural processes have resulted in significant degradation of many elements of the environment. Loss of fish passage, potential water degradation from previous mining activity and excessive erosion are all of great concern to Idahoans. Right now, fish haven't swam past an abandoned mine pit for more than 80 years. Midas Gold will reconnect fish passage before mining ever begins. According to 4.12 of the draft environmental impact statement, providing access to these historically blocked areas can improve the genetic diversity of these isolated fish populations. The Stibnite Gold Project would finance reclamation efforts to address these problems and in turn boost Idaho's economy. It is a win-win for everyone.

Thank you for reviewing my comments. Again, I urge you to permit Midas Gold's carefully thought out plan as outlined under alternative 2.

Thanks for your time,

Name: George Seminara
