

Attention Linda Jackson,

This letter is to express my support of Midas Gold's Stibnite Gold Project. America needs this project to be permitted. I hope after reading my thoughts you will understand why my support for Midas Gold Idaho is so strong. In addition to being a full time resident of Cascade and Valley County, I am the Commander of the Frank Spicklemire American Legion Post 60 in Cascade. Midas Gold has always been supportive of the Posts' community efforts and aid that we provide our Veterans. As a Valley County resident, I feel that the Stibnite Gold Project will benefit the County as well as the entire area.

The Stibnite Gold Project will help to restore the environment in our region. Under alternative two, Midas Gold has prioritized restoration work so many of the efforts occur early in the project. For example, Midas Gold will build a fish passageway around the Yellow Pine pit to provide access to native upstream habitat. The U.S. Forest Service's analysis in the DEIS (4.12-39) shows this could increase and improve overall productivity and even diversity among chinook salmon, bull trout and steelhead. The company is also required to set aside all of the funds needed to properly restore the site in a special trust so the land will be restored no matter what happens to the company. Reclamation efforts have already started at the site. Midas Gold has planted thousands of trees and worked to reduce sediment entering waterways near the site. To me, these actions prove the company is truly committed to restoring the site.

I encourage the U.S. Forest Service to move the Stibnite Gold Project forward and adopt Alternative two as the preferred alternative.

Have a good day,

Name: Paddy Warren
